Science Shrinks Piles **New Way Without Surgery** Stops Itch-Relieves Pain

New York, N. Y. (Special) -For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itch-ing, and relieve pain — without

surgery.
In one hemorrhoid case after another, "very striking improve-ment" was reported and veri-fied by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or re-traction (shrinking) took place And most amazing of all this improvement was main-tained in cases where a doctor's observations were continued over a period of many months!

In fact, results were so thor-ough that sufferers were able to make such astonishing state-

ments as "Piles have ceased to be a problem!" And among these sufferers were a very wide va-riety of hemorrhoid conditions, some of 10 to 20 years' standing. All this, without the use of narcotics, anesthetics or astrin-

gents of any kind. The secret is a new healing substance (Bio-Dyne®) - the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation He. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special appli-Ointment with special applicator. Preparation H is sold at all drug counters.
